

LEADERSHIP QUALITY STANDARD FOR PRINCIPALS

Background

Recognizing the ultimate responsibility of the Principal, the Division believes that all principals are educational leaders who promote the success of all students. This document is based on the Leadership Quality Standard sets out nine (9) dimensions for the evaluation of a Principal's performance. Descriptors following each dimension comprise a repertoire of processes and activities in which principals engage in order to meet the dimensions of Leadership Quality Standard. Principals and the Superintendent are to use the descriptors to guide professional development, supervision, evaluation and remediation strategies in order that principals can meet the Leadership Quality Standard consistently throughout their careers.
